PREFACE

Commander's Foreword

Wright-Patterson Air Force Base is one of the largest, most complex bases in the Air Force with over 26,000 personnel serving in 116 different mission organizations. In addition to the Air Force, Wright-Patt's mission partners support Combatant Commands (COCOMs), Sister Services, Major Commands (MAJCOMs), and Allies. All Wright-Patt active and reserve military, civilians, and contractors play a significant role in helping support and defend the United States. Locally, as the largest single-site employer in Ohio, Wright-Patt generates tens of thousands of direct and indirect jobs throughout Ohio's Miami Valley region.

Whether we are providing vital infrastructure and services to operate the base or training and processing the over 1,000 Airmen we annually deploy to all corners of the world, the 88th Air Base Wing (ABW) provides the underlying infrastructure enabling our mission partners' success across Wright-Patt. Our many mission partners such as the Air Force Materiel Command (AFMC) Headquarters, Air Force Life Cycle Management Center (AFLCMC), Air Force Research Laboratory (AFRL), Air Force Institute of Technology (AFIT), National Air and Space Intelligence Center (NASIC), and 445th Airlift Wing (C-17) provide critical aerospace research, test, development; life cycle and supply chain management; advanced secondary-education and research; national intelligence; flying operations; and combat support that allows the Air Force to *fly, fight and win* in air, space, and cyberspace.

The 88 ABW continually liaises with the surrounding community. The 20-plus cities, towns, and villages in the 16-county Miami Valley region, along with numerous private and public organizations, provide Wright-Patt with outstanding community support. Our community partners provide tremendous support in countless ways through various military appreciation events at local universities, sporting events, and arts and culture venues. In turn, Wright-Patt remains a strong partner with the area, with many of our Airmen providing thousands of volunteer hours to community organizations, and becoming strong ambassadors within the community.

In addition to being good stewards of the community, Wright-Patt remains an economic engine within the Miami Valley region. In 2013, the installation economic impact was estimated at approximately \$4 billion with more than 26,000 direct jobs on or near the installation at any given time. We will continue to be good stewards in the community as we strengthen and build our community relationships for both our Airmen and our Miami Valley family.

JOHN M. DEVILLIER, COLONEL, USAF
Commander, 88th Air Base Wing

Wright-Patterson's Heritage

Wright-Patterson AFB near Dayton, Ohio, traces its origin directly from the Wright brothers' pioneering flights in 1904 and 1905 at the Huffman Prairie Flying Field located in the middle of the installation. Its past, present and future are all inextricably linked with the Wright brothers' legacy. Dayton was the Wright brothers' home and Daytonians consider their city the "Birthplace of Aviation." The Wrights' early years, their bicycle shops, their printing business, and their early aviation efforts are evident throughout the greater Dayton area. Just off the end of Wright-Patterson's active runway, a replica of the Wright brothers' 1905 hangar overlooks the Huffman Prairie Flying Field. Here they established their first flying field, developed the first practical airplane, and in their own words, "really learned to fly." The Flying Field has been designated a National Historic Landmark and is part of the Dayton Aviation Heritage National Historical Park.

The installation itself has been a leader in military aviation since World War I. Aviation research and development began to flourish at Wright-Patterson as the U.S. entered World War I. Wilbur Wright Field was established in the summer of 1917 as a pilot training school at the site of Wright-Patterson's present flight line. In the fall of 1917, McCook Field was established as an Air Service engineering center. McCook Field was located near downtown Dayton at what is now the intersection of State Route 4 and Interstate 75. In 1927, a new aerodrome and research complex opened on land donated by the citizens of Dayton to replace the overcrowded McCook Field. Named Wright Field in honor of both brothers, it is now part of Wright-Patterson's Area B.

Wright-Patterson's logistics heritage also dates from World War I. The Fairfield Aviation General Supply Depot was established in 1917 adjacent to Wilbur Wright Field. The Fairfield Air Depot, as it became known, was a major Army Air Corps depot through the end of World War II. In 1931, the area encompassing the Fairfield Air Depot, Wilbur Wright Field, and the Huffman Prairie Flying Field, was renamed Patterson Field in honor of Lt. Frank Stuart Patterson who died in 1918 when his DH-4 crashed on the airfield during a flight test.

In 1948, Wright and Patterson Fields merged to create Wright-Patterson AFB. The 88 ABW has been the host organization most of the period since the merger. It has provided base operating support for the installation since 1944.

Wright-Patterson is one of the largest, most diverse, and organizationally complex bases in the Air Force. Its missions range from life cycle and logistics management, to research and development, post-secondary education and research, flight operations, national intelligence, and many other defense and non-defense activities. Wright-Patterson is home to HQ AFMC, AFLCMC, AFRL, AFIT, NASIC, the National Museum of the United States Air Force (NMUSAF), the 445 AW, a regional DoD medical center, and numerous other Air Force, DoD, and government agencies. Enabling it all is the 88 ABW, which operates, maintains, and defends the installation.

Today, as in the first century of flight, the nation's aerospace weapon systems are developed, researched, tested, and life cycle managed at Wright-Patterson AFB. The installation's legendary heritage spurs modern aerospace scientists, engineers, intelligence experts, and life cycle professionals in their quest to keep men and women flying higher, faster, farther, and safer with increasing capabilities than ever before. The installation also serves as an aerial port of embarkation and plays a continuing role in Overseas Contingency Operations.

The excellent community spirit and cooperation of the installation and its personnel is another hallmark of Wright-Patterson's heritage. Base personnel contribute thousands of volunteer hours to community projects and Science, Technical, Engineer, and Math (STEM) events. They support and offer special events at the NMUSAF, host the Air Force Marathon, conduct education outreach programs, and work with the Dayton Aviation Heritage National Historical Park to enhance the Miami Valley's legacy as the Birthplace of Aviation.

The creativity and professionalism of our military, federal civilians, and contractors combined with the vitality of the Miami Valley's citizens continue to make Wright-Patterson AFB the birthplace, home, and future of aerospace.

ECONOMIC IMPACT TABLES

APPENDICES

Analysis Methodology

The objective of this Economic Impact Analysis (EIA) is to quantify Wright-Patterson AFB's local economic activity within Fiscal Year 2013 (FY13). FY13 covers the time period from October 1, 2012 to September 30, 2013. The local area is defined by the U.S. Office of Management and Budget and is called a Metropolitan Statistical Area (MSA). The MSA for Wright-Patterson AFB consists of the following five surrounding counties: Clark, Greene, Miami, Montgomery, and Preble (Dayton-Springfield MSA). The MSA is illustrated in Figure 1 below.

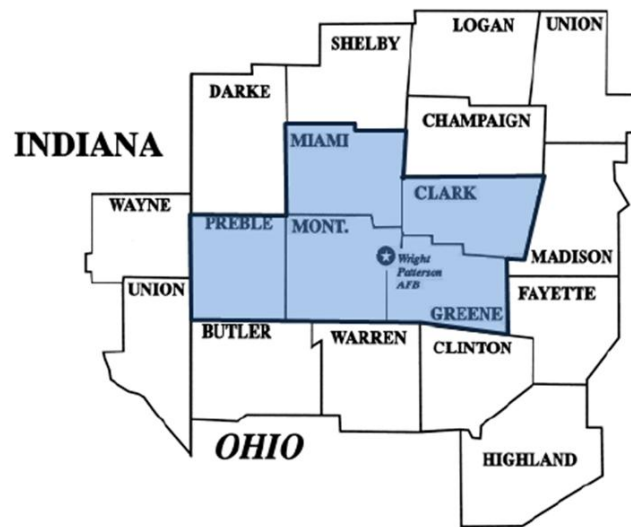

Figure 1: Economic Area for Wright-Patterson AFB

Table 1: Personnel by Classification and Housing Location

The active duty Air Force military personnel was derived from an Economic Resource Impact Statement (ERIS) produced from the Defense Joint Military Pay System (DJMS) report furnished by the 88th Comptroller Squadron (CPTS/FMF), and MilPDS provided by the 88th Force Support Squadron (88 FSS/FSM). The population of Army/International military personnel was derived from the input provided from AFIT. The population of Navy/Marine military personnel is derived from inputs provided from AFIT, Naval Medical Research Unit (NAMRU), and US Marine Forces Reserves (USMFR). The Air Force Reserve and Air National Guard population was provided by the 445 AW. The Military Dependent population (living on/offbase) was calculated utilizing the average number of dependents for all grades/ranks from AFI 65-503 *Cost Factors*, Table 29-1, *Dependents Per Military Sponsor*. The Appropriated Fund, Non-Appropriated Fund, Contract Civilian, and Private Business populations were provided by the 88 FSS/FSM, 88 CS/SC, tenant organizations, and non-governmental organizations (NGOs).

Table 2: Annual Payroll by Classification and Housing Location

The payroll for active duty Air Force military personnel was derived from the ERIS report furnished by the 88 CPTS/FMF. The Army/International military payroll was provided by AFIT. The Navy/Marine military payroll was provided by AFIT, NAMRU, and USMFR. The Air Force Reserve and Air National Guard payroll was provided by 445 AW. The Appropriated Fund, Non-Appropriated Fund, Contract Civilian, and Private Business payrolls were provided by the 88 FSS/FSM, 88 CS/SC, and various tenant organizations and NGOs.

Table 3: Expenditures for Construction, Services, and Procurement

All of the Military Construction (MILCON) funded spending was collected from the US Army Corps of Engineers (USACoE). NAF funded construction was provided by 88 FSS/FSR and the USACoE. Other construction expenditures were provided by the Civil Engineer Directorate (88 ABW/CE) and USACoE. The amount for O&M Other Service Contracts was provided by the Air Force Life Cycle Management Center Contracting Directorate (AFLCMC/PK), and AFRL. Medical Service Contract expenditures was provided by AFLCMC/PK, AFRL, and 88 MDSS. The amount for Non-Appropriated Fund Service Contracts was provided by the 88 FSS/FSR. The amount for Other Service Contracts was provided by AFLCMC/PK and the USACoE. The amount for Research, Development, Testing and Evaluation (RTD&E) Service Contracts was provided by AFRL. NAF procurement spending was provided by 88 FSS/FSR. Education spending was a combination of the inputs provided by 88 FSS/FSD and the U.S. Department of Education. Data for the Government Purchase Card (GPC) expenditures and other spending came from the 88 CPTS/FMA CRIS accounting system and the USACoE.

Table 4: Estimate of Number and Dollar Value of Indirect Jobs Created

The multipliers in this table were taken from the Economic Impact Database owned by the Logistics Management Institute, which is available through the Secretary of the Air Force Financial Management and Comptroller (SAF/FMC) webpage on the Air Force Portal. The average annual pay was taken from the United States Department of Labor website: <http://www.bls.gov/ro5/qcewoh.htm>. This methodology is required according to Chapter 8 of AFMAN 65-506.

Table 5: Total Annual Economic Impact Estimate

This table is simply a summary of Tables 1 – 4. Wright-Patterson AFB's total estimated economic impact upon the Dayton-Springfield MSA is \$4,038,247,053.

Summary

This Economic Impact Analysis was prepared by the 88 CPTS/FMA, Wright-Patterson AFB, Ohio. Questions or comments concerning the statistics or data contained in this analysis may be addressed to Mr. Ken Charles, 937-522-2537, kenneth.charles@us.af.mil.

Summary of Capital Assets

CAPITAL ASSETS		
(As of: 30 September 2013)		
Building Category		Square Feet
Housing (Includes detached garages, storage buildings, and VAQ/VOQ)		777,163
Community (Includes commissary, BX, and recreation)		2,672,118
Research and Development		8,402,213
Hospital		783,194
All Other Buildings (Includes Operations & Training, Supply, Maintenance & Production, and Administration)		4,022,792
Other Structures and Facilities		119,851
Utilities and Ground Improvement		144
TOTAL:		16,777,475
Dormitory/Temporary Quarters	Number of Units	Bed Capacity
Airman/NCO	6	592
Visiting Officer/Airman Quarters	8	441
Temporary Lodging Facilities	21	132
Compassionate Care Facilities	2	32
TOTAL:	37	1,197
Land		Acres
Fee Owned		7,629
Easements		431
Right of Way		83
Leased		2
TOTAL:		8,145
Runways		Linear Feet
Area A		19,600
TOTAL:		19,600
Facilities Data		Number of Buildings
Buildings		468
Family Housing		127
TOTAL:		595
